

3D Basic Modelling course

Modelling in Bricscad

Course Duration: 6 Months

Time: Self-Study on your own time

The Bricscad™ Introduction 3D course will enable students to create basic 3D drawings. Even at this 3D introduction level, Bricscad™ is one of the most sophisticated computer modelling applications that you are likely to encounter. The teaching strategy is to start with a few basic tools that allow the student to create and edit a simple drawing.

LEARNING OUTCOMES OF THIS COURSE

- Basic 3D Modelling Concepts
- Working drawings and 3D Objects
- Creating Surfaces
- Solid Modelling.

Prerequisites:

- A working knowledge of basic draughting procedures and terminology
- A good understanding of Bricscad™ 2D Fundamentals.
